Applying Technology – Industry / Academia : Workshop

1. Can we move to a project-based only course delivery?

2. How can you design a project to bring in all core subjects ?

3. How can we measure academic staff engagement with the PIs other than by the 50% rule?

4. What will be in and out of the curriculum over the next ten years as we prepare students for the future?

5. What has been/will be the impact of efficiency drives in teaching e.g. common modules on graduates?
