Workflow for programme-level implementation of UNSDGs

Looking around

- Review government targets, discipline specific documents
- Review guidelines & subject/discipline benchmark documents on sustainability
- **Professional/accreditation body requirements**
- Alignment with University Strategy
- Focus group with employers

Outcome: Current/future requirements framework

Looking back

- **Critical reflective analysis of current modules (individual and Team)**
- SWOT analysis (team exercise)
- Alumni focus group to identify gaps
- Current students focus group
- External examiner feedback

Outcome: Programme map of UNSDG currently delivered, highlighting gaps

Looking ahead

- Revised programme aims and graduate outcomes reflecting UNSDGs
- Revised module descriptors with clear LO linkage to sustainability if any
- Align assessment criteria and rubrics
- Implementation plan

Outcome: Matrix of Programme delivery aligned with UNSDGs

Middlesex University London

Workflow for module-level implementation of UNSDGs

Looking back

- Resources available for UNSDG/sustainability teaching in this discipline/theme
- Any specific guidelines/standards/regulations for this theme within the discipline
-

Outcome: Current/future teaching approaches to embedding sustainability in module/theme

Looking Around

- **Critical reflective analysis of current delivery (individual and Team)**
  - **SWOT analysis (team exercise)**
  - **Feedback from current students on clarity of UNSDG links**
  - **External examiner feedback**

Outcome: Module map of UNSDG currently delivered, highlighting gaps

Looking ahead

- **Introduction slides for the modules**
- **Specific activities involving UNSDG delivery in given theme**

Outcome: Matrix of Level of depth in learning & Module handbook

Middlesex University London
