

Neuroinclusion in Engineering Education

Group Activity Prompt Sheet

Please discuss the following questions in your group and make notes below each one.

1. What parts of this domain feel most relevant or helpful to you?
2. What's missing or unclear? Does the framework include aspects you care about and which would be your top priorities?
3. Does it capture your experience and thoughts as an engineering or computer science student?
4. Would this help you have better conversations with your department?
