

SPONSOR AND EXHIBITOR OPPORTUNITIES

The Engineering Professors' Council is the voice of UK engineering academics, representing over 80 universities and with 8,000 individual academics as members. The Annual Congress is the EPC flagship event of the year, attracting senior staff and academics from all over the country.

This year's Congress – '**Evolution or revolution?**' – will take place at The University of Strathclyde, Glasgow from June 17-19th, and, with a great line-up of speakers, we expect attendee numbers to be high.

The Congress, which runs over three days, attracts between 80 and 150 delegates, most of whom are decision-makers and budget controllers. The first day is devoted to networking followed by two days packed with high-profile and expert speakers. During the Congress there will be a Civic Welcome and Drinks Reception at Glasgow City Chambers on the 17th June and the Annual Gala Dinner (18th June) in the Grand Hall at Merchants House. This will feature the Hammermen Student Award and after-dinner speaker.

There are opportunities throughout Congress for supporting organisations. In addition to those listed, we can create **tailor-made packages** to help you reach our members. Just contact us to arrange a solution that meets your needs and budget.

For further details, contact j.rich@epc.ac.uk or phone 078-1111 4292.

Headline Sponsor £5,000

- Co-branding throughout Congress including publicity, Congress materials and title slides
- Exclusive name on EPC merchandise
- Inclusion of materials in delegate packs
- 2 delegate passes including Congress dinner
- Discounts on further passes

Annual Dinner Sponsor £3,500

- Branding and acknowledgement on menus at gala dinner
- Speaking opportunity at dinner
- Inclusion of flyers in delegate packs
- 2 delegate passes including Congress dinner at President's table
- Discounts on further passes

Early Career Staff Scheme £3,500

Every year the EPC provides 10 places for early career staff and students to attend absolutely free of charge including accommodation. Without this, it would be impossible for them to meet the costs themselves or have them authorised and would miss out on the career-changing opportunities of attending Congress. Supporting this scheme supports future leaders in the engineering academic community.

- Co-branding of the scheme throughout Congress including publicity and Congress materials
- Inclusion of flyers in delegate packs
- 1 delegate pass including Congress dinner
- Discounts on further passes

Public Lecture or Social Sponsor £2,000

An opportunity to act as host at one or other of two highlights in the Congress schedule. The public lecture reaches beyond delegates to the general public (particularly those with an interest in engineering and science). The first night social event is an informal networking opportunity.

- Branding and acknowledgement at the Public lecture (which will be delivered by a high-profile figures) or at the first night social event
- Speaking opportunity to say a few words at either the lecture or the social.
- Inclusion of flyers in delegate packs
- 2 delegate passes including Congress dinner
- Discounts on further passes

Supporter £1,700

- Branding and acknowledgement on Congress materials and on Congress title slides
- Inclusion of flyer in delegate packs
- 1 delegate pass including Congress dinner
- Discounts on further passes

Exhibitor package from £990

- Exhibition stand on both main Congress days (Thursday 18th and Friday 19th June at Strathclyde University)
- 1 x full delegate ticket including attendance at the Monday evening social and Thursday evening Congress Dinner
- Support acknowledged on the website with logo and link
- Opportunity to distribute printed collateral to all delegates at Congress registration or as part of an email from the EPC before or after Congress.
- Further delegate passes at a discounted rate.
