

Engineering Professors' Council Annual Recruitment and Admissions Forum 11th November, 2015 10.00-16.00

Opportunity to share experiences and ideas with other Admissions Tutors

This is an essential event for Admissions Tutors, university/faculty Heads of Recruitment and Admissions, Outreach Officers and all of those interested in the recruitment of students to engineering in higher education. We'll be covering a huge range of issues from changes to entry qualifications to the impact of higher apprenticeships

How was student recruitment across the UK this autumn?

Receive the results of the 2015 EPC enrolment survey and the latest UCAS statistics

The Talent Project

Hear about how major employers plan to work with the engineering profession to transform the image of engineering in a major new national initiative

Securing the future applicant pipeline

An update on the success of the Primary Engineer initiative and how you, your students and colleagues can get involved
