Questions

A large silhouette of a ship is visible in the lower right portion of the image, set against a sunset background. The sun is a bright yellow circle in the upper right, with its light reflecting as a shimmering path on the water's surface. The sky is a gradient of orange and yellow. The ship's silhouette includes a complex superstructure with various masts and antennas. A small red arrow-shaped graphic is located on the left edge of the slide, pointing towards the text.
