

Outreach at Sheffield Hallam University

Kate Jackson

Schools and Colleges Liaison Manager

- Overview of outreach at Sheffield Hallam University
- Core programme of schools and colleges engagement
- Engineering flagship projects
- Challenges

Associate Schools and Colleges Partnership

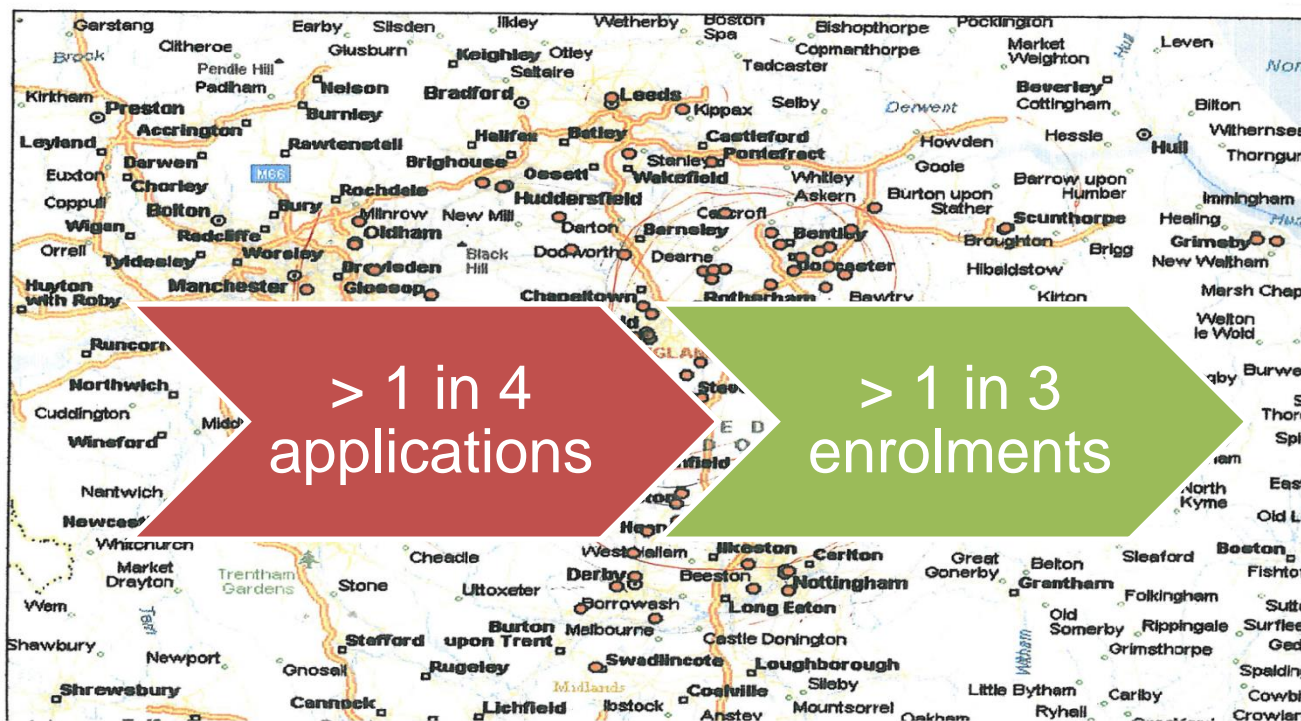

Develop institutional relationships with key feeder schools and colleges

Effective engagement with key stakeholders

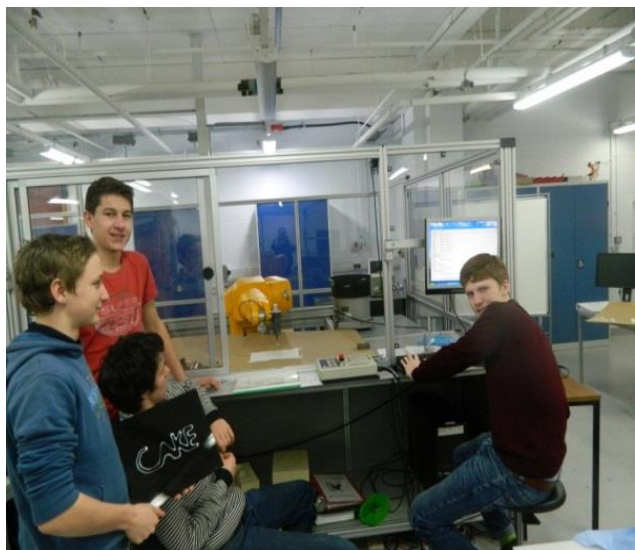

Provides useful MI

Supports faculty objectives

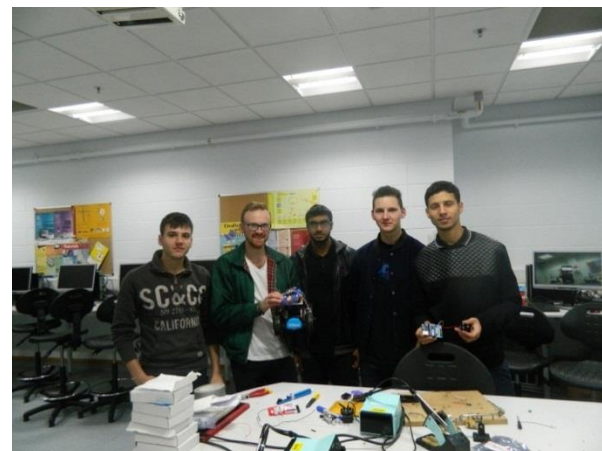

- UNI4U and Masterclasses
- School careers fairs

- STEM Subject Discovery Days

Collaboration - Engineering Development Trust,
The Institution Engineering and
Technology;
Food and Drink Federation

- Engineering Education Scheme:

'The residential has been amazingly useful. Due to the great access to equipment and superb support from the skilled technical staff, the team were able to produce more than they planned originally. The whole experience was even better than last year. Thank you for making us feel so welcome'.

(Teacher, Stockport Grammar School)

- Faraday Challenge:

'Alex thoroughly enjoyed himself and was absolutely buzzing about his day. As I'm sure you'll understand, it's hard to get a teenage boy to be enthusiastic about anything but he couldn't wait to tell us all about it when he got home. It has even inspired him to trawl the internet finding out what qualifications he needs for his chosen career. It was heart warming to witness his enthusiasm. These opportunities are invaluable to children and Alex has certainly benefited.'

(Parent of Y8 student at Dinnington Comprehensive School)

'Great for children to visit the university to increase their aspirations for the future.'

- Meeting demand for activity
- Resources in schools and colleges
- HE and careers knowledge in schools and colleges
- Changes in entry requirements/ qualifications
